The bidders are expected to examine all instructions, forms, terms, project requirements and other information in the RFP documents before submission of bid. Failure to furnish all information required as mentioned in the RFP documents or submission of a proposal not substantially responsive to the RFP documents in every respect will be at the bidder's risk and may result in rejection of the proposal.

C. Title of the Project & its objective:

1. Title of the Project: Selection of agency for Operation & Management of Call Centres with 78 nodes for implementation of High Frequency Monitoring (HFM) Project.

2. Objectives: Abdul Latif Jameel Poverty Action Lab-South Asia (J-PAL SA) in collaboration with the Government of Odisha shall conduct policy-relevant, rigorous and scientifically credible randomized evaluations of innovative anti-poverty and development policies. Government of Odisha has already taken steps towards improving its monitoring and accountability systems by using the novel approach of proactively calling and asking citizens about their experience through 5T and MO Sarkar initiatives, which are now present across all major Departments.
Three priority programmes have been identified in which HFM can be useful in FS&CW Department, to improve quality of programme implementation, namely 1. Public Distribution System (PDS), 2. Paddy Procurement & 3. PDS Portability.

D. Scope of Work:
To allocate resources for 78 nodes set-up call center facility towards the HFM project, which will give access to the audio recordings of all High Frequency Monitoring calls, filtered by mobile numbers and also to enable virtual monitoring for data quality control through Zoom. It is being identified that necessary infrastructure facility with 78 node set up call centre is required to be established for the implementation of such HFM Project. It is pre-estimated that there will be 65,000 calls per month to generate one round of report cards across both the experiments, along with 1,10,000 calls to collect baseline data before the start of the intervention and end line data at the end. The main project requirements are as follows:

1. To make provision of a dedicated call centre space with 70 operators, 7 monitors and 1 technical resource engaged full time in this project to complete at least 65,000 calls per month;
2. Engagement of a point person for CRM development;
3. Provision of automatic dialer facility, including appointment of a person to upload the list of phone numbers to be called, onto the automatic dialer to ensure uninterrupted call to respondents;
4. Access to the J-PAL SA to the call centre for monitoring purposes;
5. Access to all audio recordings from the first week of the call for monitoring and a random sub-sampling of calls subsequently for quality control;
6. Provision of a dedicated zoom line with all the monitors as well as constant phone access with all monitors to ensure smooth communication and training on a daily basis by J-PAL SA;
7. Assigning operators the same ID/computer everyday to make better use of the call logs for monitoring purpose.

E. Project Schedule:
The duration of the project shall be minimum for a period of 16 months.

F. Functional and Technical Requirements
The agency shall be entirely responsible for managing and running the call centre and satisfying all functional expectations and performance levels described in the document. The functional & technical requirements towards establishing such 78 node set up call centre is given as below:

1. Infrastructure: Adequate working space (i.e. within the locality of Bhubaneswar, Odisha) to be provided for call centre operation with un-interrupted electricity & internet facility and infrastructure like furniture & fixtures and IT equipments like computer, head phones etc. for 78 Node facilities ;
2. Hardware: The agency will provide required hardware and will be responsible for its subsequent upkeep and maintenance. This includes the servers that host all
program data, the desktop setups, network and power equipment etc.

3. **Software:** Maintaining a digital extension platform with an integrated 2 way automated IVR system. Also the agency will provide the required Software to run the call centre & for CRM Development and maintain IVR hosting, technology platforms, bespoke software etc.

4. **PRI line:** Adequate PRI Line set-up to be provided for call centre.

5. **Manpower:** Human Resource for Call Management, which includes 70 operators (preferably any Graduate with computer knowledge), 7 numbers of Monitors (preferably any Graduate with computer knowledge having minimum 3 years of experience in call centre operation) & one Technical Resource person (preferably BE/B.Tech).The agency will ensure that all legal/statutory compliances and labour laws are followed during the project operations.

6. **Monitoring:** The agency will be required to work with the J-PAL SA to monitor performance of the service using predetermined data extraction and processing functions made available.

7. Other technical requirements/equipments to run the call centre successfully.

   g) Only fixed price financial bids indicating total price for all the deliverables and services specified in this bid document will be considered.

   h) The Financial Bids of the technically qualified bidders (those have secured equal or more than 70% of mark in technical evaluation) will be opened on the prescribed date in the presence of bidders’ representatives.

   i) Errors & Rectification: Arithmetical errors will be rectified on the following basis:

   ‘If there is a discrepancy between words and figures, the amount in words will prevail’

8. **Combined evaluation of Technical and Financial Bid Score**

   a) The technical and financial scores secured by each bidder will be added to compute a composite Bid Score.

   b) The Bidder securing Highest Composite Bid Score will be adjudicated with the Best Value Bidder for award of the project.

   c) In the event the bid composite bid scores are ‘tied’, the bidder securing the highest technical score will be awarded the project or adopt any other method as decided by the Tendering Authority.

9. **Example for Calculating the Composite Bid Score**

   a) In this particular case of selection of agency, it is decided to have minimum qualifying marks for technical qualifications as 70 (Seventy) and the weightage of the technical bids and a financial bid has been kept as 70:30 (Seventy: Thirty).

   b) In response to the RFP, suppose three proposals, A, B & C were received. The technical evaluation committee awarded the following technical score as under:

   i.  A: 75 Mark
ii. B: 80 Mark
iii. C: 90 Mark
c) So, all the above three proposals were found to be technically qualified.
d) The formula for determining the Technical scores (ST) of all the above proposals is calculated as per the following procedure:
i. \[ ST = (100 \times \frac{T}{TH}) \]
ii. Where “ST” = Technical score,
iii. “TH” = Highest Technical mark given,
e) Using the above formula, the individual technical score (ST) secured by the individual bidder are as follows:
i. A = 100 \times \left( \frac{75}{90} \right) = 83.33
ii. B = 100 \times \left( \frac{80}{90} \right) = 88.88
iii. C = 100 \times \left( \frac{90}{90} \right) = 100
f) The financial proposals of the above bidders were opened and the evaluated quoted prices are as under:
i. A: 120 INR
ii. B: 100 INR
iii. C: 110 INR
g) The lowest evaluated Financial Proposal (FM) is given the maximum financial score (SF) of 100. The formula for determining the Financial Scores (SF) of all other Proposals is calculated as per the following procedure:
i. \[ SF = 100 \times \left( \frac{FM}{F} \right) \]
ii. Where “SF” = Financial score,
iii. “FM” = Lowest Evaluated Price Bid,
h) Using the above formula, the individual financial score (SF) secured by the respective bidder are as follows:
i. A = 100 \times \left( \frac{100}{120} \right) = 83.33
ii. B = 100 \times \left( \frac{100}{100} \right) = 100.00
iii. C = 100 \times \left( \frac{100}{110} \right) = 90.90
i) The weightage given to the Technical (T) and Financial (P) Proposals are:
i. T = 0.7, and P = 0.3
j) Proposals are ranked according to their combined technical (ST) and financial (SF) scores using the weights (T = the weightage given to the Technical Proposal; P = the weightage given to the Financial Proposal):
i. \[ S = (ST \times T) + (SF \times P) \]
k) Accordingly, the combine score secured by each bidder are as follows:
i. A = (83.33 \times 0.70) + (83.33 \times 0.30) = 83.32 = H3
ii. B = (88.88 \times 0.70) + (100 \times 0.30) = 92.21 = H2
iii. C = (100 \times 0.70) + (90.90 \times 0.30) = 97.27 = H1
l) The bidder ‘C’ securing the highest evaluated Combined Score (S) with evaluated cost of Rs. 110.00 will be the preferred bidder and recommended for award of the contract observing due procedure.
L. Other Terms & Conditions

1. Award Criteria

FS&CW Department will award the Contract to the successful bidder whose proposal has been determined to be substantially responsive and has been determined as the most responsive bids as per the process outlined above.
