GOVERNMENT OF ODISHA
FOOD SUPPLIES & CONSUMER WELFARE DEPARTMENT

No. 13387/FS&CW., Bhubaneswar, dated the 06/08/2026
FSCW-PL-PRC-0022-2025

From

Shri Sanjay Kumar Singh, IAS,
Principal Secretary to Government

To

All Collectors.

Sub: Farmer Registration for ensuing procurement of paddy (Kharif crop)
for the KMS 2026-27.

Madam/Sir,

I am to say that in the State, we have two paddy procurement seasons - Kharif and Rabi in which the State Government through its agency, Odisha State Civil Supplies Corporation Limited (OSCSC Ltd.), procures surplus paddy of farmers by way of payment of Minimum Support Price (MSP) and Input Assistant under Samrudh Krushak Yojana of Agriculture and Farmers Empowerment Department for their produce.

1. Farmer Registration: A mandatory Requirement: Online registration of farmers across the whole State was started from KMS 2014-15. It is a mandatory process which requires every farmer (willing to deliver surplus paddy at MSP to Government) to register with the nearest authorized PACS/ LAMPCS/ Pani Panchayat (Societies, in short). These societies are engaged by OSCSC to undertake paddy procurement operations on its behalf on payment of commission fees. Societies digitize the information submitted by farmers as regards their personal, land, Bank details and upload these data on the website of the Department, www.ppas.pdsodisha.gov.in, through the web-based Farmer Registration software application. As a result, before the start of every procurement season (Kharif / Rabi) each society is ready with a list of farmers along with their marketable surplus to commence procurement operations. Surplus is calculated @acreage of land the farmer has cultivated for the crop season multiplied by the yield rate for the specified nature of the land (irrigated/unirrigated). The yield rate of paddy is fixed every year for Kharif/ Rabi season with the approval of the Government. This helps in making advanced planning to manage procurement operations for paddy for each crop season.

For Kharif, it has been decided that all farmers willing to sell their paddy have to be registered afresh, i.e. no renewal is allowed, and

farmers have to provide all details personal, land and bank-related information.

In this Kharif season during registration farmers will give their consent for both Aadhaar based e-KYC registration and Aadhaar e-KYC based payment through IRIS i.e. at the time of farmers registration, the individual farmer would be verified vis-a- vis AADHAAR Number, biometric information that is available with UIDAI and payment would be made through the account which is linked with AADHAAR Number and it will be done through NPCI platform. ***In addition to this, in case of Sharecroppers, it has been decided to implement Aadhaar based e-KYC system for both Sharecropper and the Landowner.***

Additionally, from this year it has been decided to implement Farmer Registry ID of Agriculture & FE Department during Farmer registration in P-PAS portal.

At the time of registration, it should be clearly informed to the farmer regarding the procedure. In order to complete all activities well in time this year farmer registration process will start from **06.8.2026**.

2. All 30 districts to participate: Actual procurement of paddy (Kharif Crop) will start from the **1st week of November** in the State and close on **31.3.2027**. All 30 districts will undertake farmer registration for procurement of paddy (Kharif crop) within the timeline fixed herein (***Annexure-4***) and will schedule their procurement activities within this broad timelines.

3. Societies to be registering units: Farmers who wish to deliver their surplus paddy to the Government at MSP during the ensuing Kharif procurement season are required to register with their nearest Societies. Registration activities will be performed by authorized PACS/ LAMPCS/ Pani Panchayat in their respective jurisdictional areas. Prior registration is a mandatory process. The responsibility of digitizing data furnished by farmers and uploading them within given timeline on www.ppas.pdsodisha.gov.in solely rests with societies. Societies should update their Society Secretary & DEO details in the P-PAS web application before start of farmer registration.

4. Registration of Farmers: All farmers shall fill up a Farmer Registration Form. A sample form is annexed at ***Annexure-1*** of this letter. Anybody who submits fraudulent data and any official who facilitates the use of such data will be debarred from the procurement process and suitably dealt with as per law. A help desk shall be set up in each society to guide applicant to fill in the forms.

Secretaries of Societies will hand over the blank registration form to farmers (free of cost) who have cultivated paddy in Kharif and help them

to fill up the registration form. Farmers have to submit the filled-in form along with the copies of 'RoR', the first page of the Bank Passbook (which will be utilised only to cross verify with Aadhar Linked Bank Account), copy of his/her Aadhaar card at the society office between **06.8.2026 to 31.8.2026**.

- a. A farmer also has to submit his/her **Aadhaar Linked** mobile phone number (the Mobile number as mentioned in the Aadhaar Card, if available) and in case of non-availability of Mobile Number in the Aadhaar Card, the farmer can give mobile number which is in present use. All registration forms with invalid Aadhaar numbers will not be considered for inclusion in the list of eligible farmers.
- b. While filling up the Registration Form, a farmer has to mention the extent of the area of a plot actually utilized for the cultivation of paddy in the ongoing Kharif season, with the source of irrigation **and his / her unique Farmer ID number of Agristack**. This has to be truthfully furnished.
- c. A sharecropper (Bhaga Chasi) is required to obtain a consent letter from the landholder and deposit it along with the Registration form and **also Sharecropper should register himself/herself in Farmer Registry Portal of A & FE Department. During Sharecropper Registration, both the Sharecropper and Landowner will remain present and e-KYC of both will be done through IRIS Scanner in Live-Mode.**

A model form of consent letter is annexed at **Annexure-2**. A sharecropper has to submit a mobile number and a copy of the Aadhaar card of his landowner. There shall be no other way for a sharecropper to apply for registration except by way of the landowner's consent. Landowner's consent letter will be uploaded in P-PAS during sharecropper registration.

- d. Collectors will take timely steps to find out on the basis of an inquiry by verifying officers/ teams, the actual extent of area cultivated by registered farmers irrespective of their claims. The district administration shall adopt various mechanisms to find out the veracity of claims with regard to the total area cultivated by farmers and **where it is found that inflated claims have been made, farmers concerned will be debarred to sell paddy to the Government. The Officials who facilitate the entry of inflated claims will also be held accountable for such lapses.**
- e. A farmer should be registered in the society where his/ her land is available irrespective of the actual area of residence in a district.

5. Processing at Society Level:

- a. Checking at the Society level: The Secretary of the Society is to check the correctness of the entries in the registration form with copy of RoR, Aadhaar card, **Farmer Registry ID number (of Agriculture & FE Deptt.)**, Bank Passbook, and consent letter of the landowner (in case of Bhagchasi / sharecropper). Secretary shall satisfy himself/herself that the applicant farmer has indeed taken up cultivation on the land cited for sale of paddy and he/she is rightfully related to the recorded tenant(s) as claimed by the applicant. Utmost care must be taken to ensure that uncultivable land kism like ଅନାବାଦୀ, ଘରବାଡ଼ି, ପର୍ବତ, ନଦୀ, ଖେଳପଡ଼ିଆ, ରେଳପଥ, etc. are not entered in the system. Secretary shall be held responsible if the applicant's inflated claims are taken into consideration during the registration process. If any farmer forcefully claims register of such type of Kism of land, he / she will be debarred from paddy procurement operation.

Similarly, high lands generally not suitable for paddy cultivation, should not be entered into the system. Wherever high lands under cultivation are entertained such cases must be enquired into by a joint team as described in paragraphs hereinafter. If any case of high land cultivation is found to be false, action should not only be taken against officials who facilitated the entry of such data but also against the officials who conducted field inquiry.

- b. Digitizing the information in Registration Forms: After checking the Registration Form along with documents, it will be digitized at the society office under the supervision of the Secretary. Forms will be digitized under the society login provided in the Farmer Registration module.
- c. As the land details are linked to the Bhulekh application while entering details, the plot number has to be entered after selecting Tehsil and Village. The online system will fetch relevant details from the Bhulekh database in respect of Kism, Recorded Tenant (RT), total plot area in acres etc. Other fields i.e. area under cultivation and source of irrigation (in case of irrigated land) are to be entered by the society. Utmost care must be taken to ensure that uncultivable land kism are not entered into the system.
- d. In case of death of RT or joint RTs in Bhulekh, the consent letter **Annexure-3** of the RT(s) or his/ her legal heirs shall also be uploaded in P-PAS.

Annexure-3 submitted by Farmers should be verified by the concerned Revenue Inspectors for verification of claims. Collectors of

the Districts should ensure that such verification must be completed in the stipulated timeline to avoid inconvenience to the Farmers.

- e. Wherever lands are claimed to be irrigated by LI/ bore well point, the farmer has to quote the electricity consumer number for the same in the specified field in the application form. As there have been false claims in the past in respect of the source of irrigation, society has to be very careful in admitting such declarations by farmers. Such claims have to be verified by appropriate enquiry.
- f. Kisams of lands which are not suitable for paddy cultivation should be strictly avoided while digitizing data during registration.
- g. Aadhaar and Aadhaar linked Mobile number is mandatory before the digitization of a form. During receipt of the Registration Form, the Society Secretary has to validate Aadhaar and Mobile number in the form receipt section of the online farmer registration module through IRIS.
 - I. After entering the Aadhaar information of a farmer, the Society Secretary has to click the "Validate" button to check the Farmer's Name and Aadhaar number with the UIDAI database *through IRIS device*.
 - II. Similarly, the Society Secretary has to ensure that the Aadhaar linked mobile number has been mentioned in the registration form after which an OTP will be sent to the registered mobile number from the system. The Society Secretary has to enter the OTP received in the farmer's mobile for validating the correctness of the mobile number mentioned in the registration form submitted by the farmer.
- III. Once Aadhaar and Mobile number are validated as per the above process, society can digitize the rest of the information of a farmer in the form provided in the online system.
- IV. **Online populating the new fields:**
 - As, the Farmer Registration system has been integrated with UIDAI, the Farmer's Name, Gender, Pin code and Bank name will be auto filled in the Farmer Registration form.
 - As, the Farmer Registration system has also been integrated with the 'Bhulekh' database system on a real-time basis, fields of 'Kisam', 'Recorded Tenant in RoR', and 'Plot area' will be automatically populated in the entry screen once the 'Plot Number' is keyed in. There will be no scope to change the plot area at the data entry stage. But, the area actually cultivated out of the recorded area of each plot has to be entered into the

system. Those cultivated plots whose areas are less than or equal to the Bhulekh area would be auto-validated by the system.

- **Acknowledgement Slip:** *After completing the registration, the society will provide a printed copy of the farmer registration Acknowledgement slip for their physical record. The Secretary of the Society must ensure that the farmers shall receive the Acknowledgement Slip on real-time basis.*
- **Conflicting Claims:** There may be cases where the same plot area is claimed to be cultivated by multiple farmers. The online system will veto claims for inclusion of a particular land, if the combined cultivated area of all the applicant-farmers in respect of the same plot exceeds the total area of the plot as shown in Bhulekh/ RoR. Such anomalies are to be addressed at the society level / supervising officers upon checking the genuineness of the conflicting claims.
- **User Manual:** A user manual will be provided to the Societies explaining the entire process of Farmer Registration. Societies must carefully go through the user manual before starting the digitization process.

6. Timelines for various activities at the Society level:

- a. Download and print out of Registration Forms and distribution thereof shall be done from **06.8.2026** to **25.8.2026**.
- b. Filling up of Registration Forms and submission along with required documents at Society for Real time registration shall be between **06.8.2026** to **31.8.2026**.
- c. Digitization of Forms by their Society shall be done between **06.8.2026** to **31.8.2026**.
- d. Field verification by RI, A&FE, Co-operation and Water Resource Department from **10.8.2026** to **10.09.2026**.

7. Verification by Officials of Revenue, Agriculture & FE, Co-operation and Water Resources Department:

Verification by Revenue authorities in respect of plots (which are not available in Bhulekh) has to be done by following the procedure as given below.

- I. Wherever verifying teams have reported about non-Bhulekh plots, a list of such plots may be referred to Tehsildar for validating claims.
- II. All lands which are not classified as irrigated in Revenue records but claimed to be irrigated by LI point/ bore well shall be verified by officials concerned (DAO, EE, Lift Irrigation) to determine the authenticity of such claims.

III. Claims as to extent of cultivation in respect of all registered farmers shall also be verified.

- All claims regarding actual area of cultivation, kism of Land, source of irrigation, period of Paddy to be brought to PPC as per column No.20 will be verified by the Team of Officials from Revenue, Agriculture & FE, Co-operation Departments and Officials from Major/Minor/ LI wings of the Water Resources Department. The entire work will be completed within the prescribed timelines mentioned by the Department which is to be ensured under the active supervision of District Collectors.
- District Collectors shall also cause the above verification to be done in respect of Pani Panchayats doing farmer registration work in their jurisdictions.
- In case of any grievance related to Farmer Registration, Farmer may feel free to contact the society/ARCS/DRCS or may contact through Toll-Free number i.e. 1967 of FS&CW Department for grievance redressal.

IV. Transmission of Verified Reports.

The concerned officers will undertake the field verification of all the registered applications and submit the field verification report within one week of registration. It will be the sole responsibility of District Collectors to ensure proper field verification by the verification team and also to ensure the field verification report to be submitted and to update the Farmer data in the Registration database within one week from the date of Registration.

8. Verification of Bank Accounts:

After the registration process is completed at the Society level, the Bank-related information of the farmers will be validated through Aadhaar e-KYC based payment system.

Accordingly, the farmer needs to be informed about the Bank Name seeded that is linked with Aadhaar number.

In case of any Aadhaar not linked with Bank Account the farmer may contact immediately the respective bank for updation of e-KYC.

9. Updating the verified Farmer Registration reports by Society Secretaries, ARCS, DRCS:

The information of the online Farmer Registration Module shall be utilised in Paddy Procurement Automation System(P-PAS). Hence, timely completion of Farmer Registration is important for Kharif Procurement.

The concerned society secretaries, ARCS, DRCS are required for updating and validating all reports related to the Field Verification and

Farmer Registration within the timeline specified, i.e. **12.8.2026 to 17.09.2026**

10. Paddy crop area validation through satellite survey:

In upcoming Kharif season, the Government has decided that all plots registered in the "Farmer Registration Module" will be verified through the satellite imagery for all 30 districts of the State.

The satellite survey data on the suspected plots will be shared with the DRCS/ARCS for further validation at their level through ORSAC land survey mobile application and web portal.

11. Second layer Validation through AgriStack

Digital crop survey information will be utilised as the 2nd Layer of verification.

12. Training and Supervision:

- Adequate training needs to be provided as per the SOP finalised by the Department to all officials concerned with Farmers Registration and **Farmer ID of Agristack of Agriculture & FE Deptt.**
- In this regard a database of Master Trainers from Districts needs to be prepared.
- Training needs to be conducted in small batches and under the Direct supervision of Collectors of concerned Districts and CCSO/CSO/DRCS/ARCS.

13. Monitoring and Registration Process

Overall, District Collectors shall be responsible for the quality of registration work in their jurisdiction. Senior functionaries like DRCS / ARCS / CCSO/CSO/Addl. CSO/ ACSO/ Inspector of Supplies shall also be assigned with specific societies for supervising the Registration work. Collectors shall take regular review of Supervising officers to monitor the progress made in respect of Farmer Registration, verification of Registered data and timely completion of Farmer Registration.

14. Time Schedule:

The time schedule of different components of the registration process is at **Annexure – 4**. Each and every activity must be completed as per the timelines as prescribed.

Yours faithfully,

Principal Secretary to Government
